Professional Profile

I just want to expose my skills in the field of 'web development' and want to learn a lot of things. I am looking for a role where I can grow and learn from other experienced team members.

Skills

- ➢ **Comfortable:** JavaScript, React.js, HTML5, CSS3, Bootstrap**,** Firebase Authentication & deploy, react-router, ES6.
- ➢ **Familiar:** Material UI, Node.js, Express.js, MongoDB, MYSQL, Java, Data Structure and Algorithm, SASS.
- ➢ **Tools:** VS Code, GitHub, Heroku, Firebase, Netlify, Dev-tool**,** Figma.
- ➢ **Language:** Fluent in **Bangla**, familiar in **English** & **Hindi**.

Projects

❖ Crystal Event (MERN Stack Project)

Live Site || **GitHub Client** || **GitHub Server**

- Event management company projects include firebase authentication, different types of dashboard for both clients & admin.
- Clients can easily book in the client dashboard and also see previous booking lists. Admin can add or delete the services and an admin can also make another person as an admin.
- Sign in is required for this site for booking, check status for both admin and client and Stripe payment system is implemented using stripe.

Technology

React.js, Node.js, Express.js, MongoDB, Firebase, bootstrap, react form, stripe, font-awesome, react-router, material UI.

❖ Food-Desire (MERN Stack Project)

Live Site || GitHub Client || GitHub Server

- Private route, firebase authentication, Server side maintenance, Database integration included in this project.
- Admin can add product or delete product from database and sign in is required for purchasing any product from site.
- Users can see only their purchasing product on the order page.

Technology

React.js, Node.js, Express.js, MongoDB, Firebase, bootstrap, Heroku, react-form

❖ City Rider (React with Firebase Authentication)

- React, React-Router-Dom, firebase authentication with Email, g-mail & fb.
- Customer can find vehicle like car, bus, bike, train for any specific destination
- Google map integration for a specific area of from to destination.

Educational Background

BSc in Computer Science and Engineering (4th year running) at

City University, Dhaka, Bangladesh.

Experience

- Former front end developer(intern) at source9 (Jan 2020-April 2020).
- Complete Web Development Course at Programming Hero.

Extra Activities

- Co-convener of City University Chapter at BASIS Student forum(see details).
- 119 programming problem solved at URI online judge (go to profile).
